

TCC_EUROPE Online Immunology Lecture Series (2022/23):

1st Tuesday each month @ 17:00 – 18:15 (CET) via ZOOM

04. October 2022

Anna SCHURICH	Department of Infectious Diseases, School of Immunology and Microbial Sciences, Guy's Hospital, King's College London, UK
Therapeutic T cell function, metabolism and exhaustion	

Nicole BOUCHERON	Institute of Immunology, Medical University of Vienna, Austria
Rin-like, a gatekeeper of T follicular helper cell differentiation	

01. November 2022

Monika WOLKERS	Department of Hematopoiesis, Sanquin, Amsterdam, The Netherlands
Regulation of T cell function by post-transcriptional events	

Martin VAETH	Metabolism and Immune Cell Signaling Group, Würzburg Institute of Systems Immunology, Würzburg, Germany
Mitochondrial integrity safeguards the stemness of exhausted T cells	

06. December 2022

Petra BACHER	Institute of Immunology & Institute of Clinical Molecular Biology, Christian-Albrecht-University of Kiel, Germany
Regulation of tolerance and inflammation by human antigen-specific T helper cells	

João BARATA	Instituto de Medicina Molecular João Lobo Antunes, Faculdade de Medicina, Universidade de Lisboa, Lisbon, Portugal
Gone wild: IL-7 and IL-7R in T-cell leukemia	

10. January 2023

Maike HOFFMANN	Liver Immunology Lab, Department of Medicine II, Medical Center – University of Freiburg, Germany
CD8 ⁺ T cell dysfunction in chronic viral infections in humans	

Carolin DANIEL	Institute of Diabetes Research, Group Immune Tolerance Type 1 Diabetes, Helmholtz Diabetes Center at Helmholtz Center Munich, Germany
Regulators of regulatory T cells in Type 1 Diabetes	

07. February 2023

Veit BUCHHOLZ	Institute for Medical Microbiology, Immunology and Hygiene, Technical University of Munich, Germany
Defining the origin of exhausted CD8 T cell responses to chronic infection and malignancy	

Thomas KORN	Institute for Experimental Neuroimmunology, Klinikum rechts der Isar, Technical University of Munich, Germany
Shaping of T cell responses in neuromyelitis optica	

07. March 2023

Stephanie HUMBLET-BARON	Department of Microbiology, Immunology and Transplantation, Laboratory of Adaptive Immunology, KU Leuven, Leuven, Belgium
Calcium signaling and immunodeficiency	

Abc	Abc
Abc	

04. April 2023

David SANCHO	Laboratory of Immunobiology, Centro Nacional de Investigaciones Cardiovasculares (CNIC), Madrid, Spain
Mitochondrial Oma-1 in the regulation of T cell priming and memory generation	

Rahul ROYCHOUDHURI	Department of Pathology, University of Cambridge, UK
Enhancing T cell immunity to cancer metastasis	

02. May 2023

Iris GRATZ	Department of Biosciences, University of Salzburg, Austria
Human cutaneous T cells in inflammatory skin disease	

Manuel DIAZ-MUNOZ	Toulouse Institute for Infectious and Inflammatory Diseases (Infinity), France
Postranscriptional control of T-cell homeostasis	

06. June 2023
